Messe Frankfurt Argentina #Conecta

Opening paths, creating connections and generating new business opportunities.

At **Messe Frankfurt Argentina**, we carry out proposals that originate multiple contacts and successful B2B operations both locally and internationally.

How? Linking future trends with new technologies, people with markets and supply with demand.

Through **innovative resources** and close **contact** with exhibiting brands, Messe Frankfurt constantly adapts its events to the needs of the market and imposes new ideas with excellent results.

Messe Frankfurt worldwide

As an Argentine subsidiary of the German company **Messe Frankfurt GmbH**, a leader in organizing international exhibitions, since 2003 we have generated innovative proposals with the aim of stimulating regional markets.

Creating markets

Over the years we have worked to ensure that our events are **gateways to future business** and open windows to new ideas. Our initiatives offer exhibitors and visitors a global overview of upcoming news and trends, while serving as a strategic platform for business operations, contact generation and knowledge sharing.

Much more than exhibitions

In addition to holding exhibitions, we also specialize in organizing **Congresses and Special Events** tailored to the needs of each of our customers. In all of them, we respect the highest quality standards.

Whether face-to-face or virtual, we put the emphasis on **meetings**: the right people, the right meetings in the right place.

Let's keep meeting!

The background of the entire image is a close-up photograph of several thick, braided ropes or textile samples. These are arranged vertically in a row, each with a different color and texture. From left to right, the visible colors include yellow, green, light blue, orange, pink, and dark orange. The ropes are coiled or knotted at the top, creating a textured, three-dimensional effect.
